**Coyote/Fox Urine Granules**

Can be  
used for  
**Domestic  
Cats**  
**Moles, Voles  
& Shrews**

**Creates the illusion that predators are  
present in your lawn or garden**

**KEEP OUT OF REACH OF CHILDREN  
CAUTION**

See side panels for Precautionary Statements and Directions for Use.

**Active Ingredients:**

Coyote Urine ..... 3.50%

Fox Urine ..... 1.50%

**Other Ingredients:** ..... 95.00%

**Total:** ..... 100.00%

Net Contents 20 oz. (567g)

EPA Reg. No.: 80917-5

EPA Est. No.: 084871-NY-001

**Directions for Use**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**General:**

Animals use urine to communicate in the wild. When they repeatedly smell a predator's odor, animals conclude it's a "dangerous" place and choose instead to move elsewhere. Shake-Away® Coyote/Fox Urine Granules creates the illusion that coyotes and foxes are present in your lawn or garden.

**Application Directions:**

**Use Restrictions** – This product is not for direct application to plants intended for human consumption (i.e., food plants). Apply only to the perimeter of where food plants are grown. To create a repellent barrier, apply this product to soil, ground cover, bark mulch, perimeter vegetation and non-food vegetation adjacent to food plants.

**General Use** – Apply Shake-Away® Coyote/Fox Urine Granules twice a week for the first two weeks, then twice a month for maintenance. Sprinkle Shake-Away® Coyote/Fox Urine Granules lightly in and around areas where animals are causing damage, or in areas you want to protect.

**In attics, basements, garages and sheds** – Place two to four ounces of Shake-Away® Coyote/Fox Urine Granules in an open container. Place one container per every 8' x 10' area (80 sq. ft.) where animals are getting in, but in an area inaccessible to children. Replace every four to six weeks, or as needed.

**For burrowing moles, shrews and voles** – Sprinkle Shake-Away® Coyote/Fox Urine Granules directly into every hole you find in your yard, flowerbeds, along foundations, etc. For tunneling moles and voles, poke a two-inch deep hole every three to four feet along all tunnels. Sprinkle Shake-Away® Coyote/Fox Urine Granules into each hole and then cover with dirt.

Allow up to two to three weeks for Shake-Away® Coyote/Fox Urine Granules to take full effect.

**Coverage:**

Use one ounce of Shake-Away® Coyote/Fox Urine Granules for every 30 linear feet. Each bottle of Shake-Away® Coyote/Fox Urine Granules will cover up to 600 linear feet for 20 oz. bottle when applied as directed.

**STORAGE AND DISPOSAL**

**Do not contaminate water, food or feed by storage and disposal.**

**Storage:** Store in a cool, dry place.

**If empty:** Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

**If partially filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

**There's a Shake-Away® product for every situation.**
